

*Built on the Power of Talon*

**Powerful Capabilities.**

Talon CAD Import is an add-on module to Talon Incident Management System (TIMS) that provides a structured records environment in which users can import calls for service from a CAD system into TIMS. Data can also be imported into Talon Officer Daily Forms, saving time, keystrokes and improving accuracy.

**Affordable.**

Talon CAD Import is competitively priced with multiple implementation options to fit every agency and allows agencies to leverage their existing Core Technology investment in software products like Talon, TIMS, CAD Export and MultiBridge. Future releases provide for additional features and functionality to better meet overall incident management system and calls for service needs.

**Proven, Reliable Software Provider.**

Founded in 1981, Core Technology has been a strong, stable Michigan company for 30 years. Nearly every law enforcement agency in the state is already a valued customer.

Import CAD Call

Would you like to import one of the CAD calls to which you have previously been dispatched?

Search By:  Start Date:  (mm)  (dd)  (yyyy) End Date:  (mm)  (dd)  (yyyy)

Select one of the CAD calls below:

Incident Number	Call Date	Dispatched	On Scene	Cleared	Description	Location
10-00012699	12/20/2010	14:12	14:21	14:31	Civil	49286 106 W KILBUCK ST
